HOW TO FILL OUT THIS QUESTIONNAIRE

To answer most of the questions you need only circle a number either in a row or a column. Please circle the answer which is closest to your view. There are no right or wrong answers, and, in particular, there is nothing wrong in saying that you don't know or don't have an opinion on some matters!

Here is an example.

<table>
<thead>
<tr>
<th>Do you think the government should spend more or less on defence?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spend more on defence......................................................... 1</td>
</tr>
<tr>
<td>Spend less on defence............................................................ 2</td>
</tr>
<tr>
<td>Spend same as now................................................................ 3</td>
</tr>
<tr>
<td>Don't know.............................................................................. 0</td>
</tr>
</tbody>
</table>

If you personally think the government should spend the same as now on defence, you would circle 3 as shown.

Sometimes you are asked to write in an answer or tick in a box. In those cases, simply do so in the space or box provided.

Please read each question carefully. Remember, there are no right or wrong answers. We just want to know your own personal opinions.

When you have finished the questionnaire, please place it in the envelope provided and post it. **No stamp is needed.**

We hope you enjoy the questionnaire. And thank you very much for taking part in this study.

A: Politics, Parties, Issues and Politicians

A1: First, how interested would you say you personally are in politics?

Very interested.......................................................... 1
Fairly interested....................................................... 2
Slightly interested................................................... 3
Not at all interested................................................ 4
Can’t choose............................................................. 5

A2: During the election campaign, did you do any of the following things? (Circle ‘1’ for yes or ‘0’ for no in each row).

<table>
<thead>
<tr>
<th>Activity</th>

C: Other Policies and Values

C1: Some people say we should concentrate more on protecting the environment, even if it leads to considerably lower incomes for everyone. Let's say that those who believe this place themselves on number 1. Others think that we should safeguard our income levels before we seek to protect the environment. Let's say these people place themselves on number 7. And others have opinions somewhere in between at numbers 2, 3, 4, 5, and 6.

C8: Some people think that the government should redistribute income and wealth in favour of ordinary people, by taxing rich people more heavily than they are now. Suppose that those people are at one end of the scale below, at number 1.

Others feel that rich people should be able to keep most of their income and wealth for themselves, and that their taxes are too high now. Suppose these people are at the other end of the scale, at number 7.

And others have opinions that are somewhere between, at numbers 2, 3, 4, 5, and 6.
